

Our Church History

In the spring of 2017, God was stirring the hearts of some of the men in our current congregation to plant a healthy local church. This desire was to see a church planted in the area that was not built on pragmatism, church growth techniques, or around a personality, but on the word of God. Although there was only the talk of planting a church, little did anyone know what God was about to do. Through various circumstances, the Lord providentially brought a group of people together to worship together for the first time on July 16, 2017. It was unclear as to who would even be at this first service, but to our amazement, God brought around 30 people together for worship, many of whom had never met each other.

Our first 2 services were held at Crossroads Fellowship in downtown Bixby, OK. By the third Sunday, God answered our prayer and gave us a permanent meeting spot for the first 6 months of the plant, which was located at the Chapel in the Woods. Today, we are still in awe of the way God has brought things together, and we are excited to see what God does with this church to bring Himself glory.
